

## **Sinking Sand**

### **Why there all leaving**

*Youth are leaving the church from all sides like never before , and most of those staying sure don't show so much interest in it. Today we hear the voices of youth , explain how today's church is losing the grip on them and almost becoming sinking sand, and how we can create a Christ centered community that fosters growth in our walk with christ, how we can build on christ the solid rock.*

**Introduction & welcome - Rodrick**
